---

Graph4MM Output: 4: Graphic T-Shirts and Sweatshirts **(Correct)**
MMGL Output: 8: Basic T-Shirts **(Incorrect)**
Ground Truth: 4:Graphic T-Shirts and Sweatshirts

- Input Images:

Figure: A typical case where MMGL fails, while Graph4MM makes the correct prediction. Misleading multimodal information related to basic shirt leads to the error, as MMGL lacks structural priors to distinguish neighbors.
